
APPROVED 4-HR CHEMISTRY/BIOCHEMISTRY ELECTIVES

Each student must complete four hours of a chemistry or biochemistry elective with a lab experience. The following courses may be used to fulfill this requirement. *Additional courses may be approved by the ChE Undergraduate Faculty Advisor and require approval prior to registering for the course.*

NOTE: Not all courses may be offered every semester. Check a current course schedule for course offerings. It is the student's responsibility to check that all prerequisites and corequisites are met prior to enrolling in a course.

Option 1

Take one of these standard 4-hr CH courses

CH 431	Inorganic Chemistry
CH 455	Fundamentals of Analytical Chemistry

Option 2

Take one of these courses

BCH 339F	Foundations of Biochemistry
BCH 369	Fundamentals of Biochemistry
CH 354	Quantum Chemistry and Spectroscopy
CH 354L	Physical Chemistry II
CH 354M	Computational Methods in Chemistry
CH 367L	Macromolecular Chemistry (CHE 355)
CH 371K	Science Outreach in Elementary Schools

AND

Complete one of these lab experiences

CH 154K	Physical Chemistry Laboratory*
BIO 206L	Introductory Lab Experiments in Biology**
E S 321G	GLUE Undergrad Research
CH 368	Computational Materials - FRI (Freshman Research Initiative)
CH 367C	Materials Chemistry - FRI (Freshman Research Initiative)
CH 369K	Techniques of Research - FRI (Freshman Research Initiative)
CHE 377L	Undergraduate Research Project
CHE 277L	Undergraduate Research Project
CHE 177L	Undergraduate Research Project
CHE 377K	Undergraduate Research Project
CHE 277K	Undergraduate Research Project
CHE 177K	Undergraduate Research Project

* There is precedent for instructors waiving the CH 354/354L co-req, but it is not guaranteed

** Credit or registration for BIO 311C required
